Overhead Smash Techniques

- Move your feet.
- Coil the upper body heading left hand elbow facing the ball.

How to Gain Control in Rallies?

- Add top spin by click up with the wrist.
- Drop the rear leg down to generate low to high swings.

How to Improve your Volley?

- Stop using wrist now. Very inconsistent.
- Footwork and balance = Volley
- Fix wrist.
- Shoulder as the hinge.
- High to low for spin.
- Same for Backhand Volley.

Forehand Tips

- How to Hit Powerful Forehand like the Pros?
- Hold the racket loose with loose hand?
- Ask. How tight am I holding the racket?
- Coiling the upper body and uncoil into the shoot.

Serve

Serve Techniques

- Continental Grip
- Advanced Loop Serve holding ball like ice-cream cone.
- Lean Forward, back, forward and toss ball inside and hit to have loop toss.
- Toss the ball only to the peak of your reach.
- Toss should be out in front at 1 as in clock.
- Lean a loop toss that always keeps the ball out, in front.
- Leaning a throwing motion will greatly improve your serve.

- To generate power in serve, use the racket drop behind you with continental grip or semi-western grip.
- Walk-in, Split and Move on a diagonal to hit the ball.

Topspin (Kick) Second Serve

- Toss the ball to catch it at the top of the racket.
- Take baby steps to practice and generate the rhythm.

Key Ingredients of the Return of Serve

- Be excited and relaxed at the same time
- Focus in the ball
- Forward Movement

How to prevent hitting first serve going out?

- Toss only to the peak of your reach or little lower.
- Brush the ball from 8 to 12 to put top spin.

How to stop Serves in the net?

-

How to serve loose for more power?

- Toss only to the peak of your reach.
- Keep the palm down with loose hand.
- Generate the racket loop by dropping it down.

How to generate power with your server?

- Keep the palm down to get full racket drop.
- After the racket drop, turn the shoulder into the shot.
- Racket drops with loose shoulder.
