Strong backing of ITU-T in PP-10

- TSB Director Malcolm Johnson honoured with strong mandate
- PP-10 had numerous ITU-T issues and numerous references were made to ITU-T work

ITU-T's strategic goals

- “To develop interoperable, non-discriminatory international standards (ITU-T Recommendations)”
- To assist in bridging the standardization gap between developed and developing countries
- To extend and facilitate international cooperation among international, regional and national standardization bodies”

ITU's financial situation

- Some countries increase, some countries decreased their financial contribution to ITU
- Financial Plan of CHF 632 million adopted for the years 2012 – 2015

New membership category for Academia

membership fee:

- Universities/institutes from developed countries
CHF 3,975
- Universities/institutes from developing countries
CHF 1,987.50
- (Sector Membership fee for industry: CHF 31,800)

Reduced membership fee for Sector Members from developing countries

ITU-T Sector membership fee for Sector Members from developing countries with annual per capita income of less than USD 2 000 according to the UNDP classification:

CHF 3,975

ITU-T reinforced role in ICT and Climate Change

- PP-10 approved a new Resolution “The role of telecommunications/ICTs on climate change and the protection of the environment”
- A strong mandate for ITU-T to show leadership

Strong support for Conformance and Interoperability programme

- PP-10 approved a new Resolution “Conformance and Interoperability”
- ITU-T to implement without delay Council-09 endorsed:
 - conformity assessment programme;
 - interoperability programme;
 - human resources capacity building;
 - assistance in the establishment of test facilities in developing countries

Invites Sector Members

- to populate the pilot conformity database with details of products tested to applicable ITU-T Recommendations:
 - in accredited test laboratories (first, second or third party)
 - or by accredited certification bodies
 - or according to procedures adopted by an SDO or forum qualified in accordance with Recommendation ITU-T A.5;
- to participate in ITU-facilitated interoperability events
- to take an active role in building capacity in developing countries
- to bear in mind the legal and regulatory frameworks concerning equipment that negatively affects the quality of telecommunication infrastructure, in particular with respect to counterfeit equipment

Five Internet-related Resolutions

■ Revised:

- Res 101 "Internet Protocol-based networks"
- Res 102 "ITU's role with regard to international public policy issues pertaining to the Internet and the management of Internet resources, including domain names and addresses"
- Res 133 "Role of administrations of Member States in the management of internationalized (multilingual) domain names"

■ New:

- New Res "ITU role in organizing the work on technical aspects of telecommunication networks to support the Internet"
- New Res "Facilitating the transition from IPv4 to IPv6"

Essence of Internet Resolutions

- ITU “to explore ways and means for greater collaboration between ITU and relevant organizations including, but not limited to, ICANN, the RIRs, IETF, ISO and W3C, on the basis of a reciprocity
- ... to increase the role of ITU in Internet governance ...”
- Director TSB to review need for new study group to work on technical issues of telecommunication networks to support the Internet

First Resolution on Accessibility

- PP-10 approved a new Resolution "Telecommunication/ICT accessibility for persons with disabilities, including age-related disabilities"
- ITU to provide accessibility to ICTs, and to ITU facilities and services, for participants with visual, hearing or physical disabilities
- Establishment of voluntary fund to assist disabled participants

Cybersecurity

- Rev Resolution 30 "Strengthening the role of ITU in building confidence and security in the use of ICTs"
- ITU-T
 - to intensify work in ITU-T study groups
 - to address existing and future threats and vulnerabilities
- ITU to work towards a possible MoU to strengthen cybersecurity and to combat cyberthreats

International Telecommunication Regulations (ITRs) and World Conference on International Telecommunication (WCIT)

- PP-10 confirmed Council's decision to hold a World Conference on International Telecommunication (WCIT) back-to-back with WTSA (October/November 2012)
- WTSA will again be preceded by a 1-day Global Standards Symposium
- WCIT will consider new and emerging issues for updating International Telecommunication Regulations within its scope and purpose
