

WELCOME TO ITU-T

Committed to connecting the world

ITU's Telecommunication Standardization Sector (ITU-T)

**Malcolm Johnson
TSB Director
ITU**

**Pune, India
17 December 2010**

Committed to connecting the world

The INTERNATIONAL TELECOMMUNICATION UNION

- ❑ ITU is the **UN agency** for telecommunication and information & communication technologies (ICTs)
- ❑ World's **governments** and regulatory bodies work together with **private sector** and **academia** to bring the benefits of ICTs to the citizens of the world

ITU STRUCTURE

3 Sectors:

- ☐ **Standardization (ITU-T):** promotes enabling technical, policy and regulatory frameworks to boost ICT development
- ☐ **Radiocommunication (ITU-R):** coordinates the shared global use of radio spectrum and geostationary satellite orbit
- ☐ **Development (ITU-D):** works to improve telecommunication infrastructure in the developing world

ITU-T STRATEGIC GOALS

- ❑ To develop **interoperable, non-discriminatory** international standards (ITU-T Recommendations)
- ❑ To assist in **bridging the standardization gap** between developed and developing countries
- ❑ To extend and facilitate **international cooperation** among international, regional and national standardization bodies

ITU-T

WHAT DO WE DO?

Committed to connecting the world

CLIMATE CHANGE

- ☐ Enhance the use of ICTs to measure and reduce greenhouse gas emissions across economic and social activities
- ☐ Reduce greenhouse gas emissions in ICT sector line with UNFCCC goals
- ☐ Increase information on the role of ICTs in combating climate change

CONFORMANCE and INTEROPERABILITY

- ☐  ITU Interop – interoperability testing programme
- ☐ Conformity assessment programme
- ☐ Human resources capacity building
- ☐ Assistance in the establishment of test facilities in developing countries

INTERNET Issues

- ❑ Internet Protocol-based networks
- ❑ Transition from IPv4 to IPv6 
- ❑ Collaboration between ITU and ICANN, the RIRs, IETF, ISO and W3C
- ❑ Technical issues of telecommunication networks to support the Internet

CYBERSECURITY

- ☐ Strengthen the confidence and security in the use of ICTs: e-business, Identity Management Global Standards Initiative, etc.
- ☐ Address existing and future threats and vulnerabilities in ITU-T study groups work
- ☐ Strengthen cybersecurity and combat cyber threats

BRIDGING THE STANDARDIZATION GAP

- ☐ Regional groups and flagship groups
- ☐ Organization of workshops and seminars in the regions
- ☐ Fellowships for participation in all ITU-T study groups and TSAG
- ☐ SG vice-chairmen from developing countries

ACCESSIBILITY

- ☐ Enhance Telecommunication/ICT accessibility for persons with disabilities, including age-related disabilities
- ☐ Provide accessibility to ICTs, and to ITU facilities and services, for participants with visual, hearing or physical disabilities
- ☐ Establish a voluntary fund to assist disabled participants

EMERGENCY COMMUNICATIONS

- ❑ Common alerting protocol (CAP)
- ❑ Consistent approach for the transmission of warning or alerting messages
- ❑ Call prioritization for emergency calls in a disaster area
- ❑ Emergency call numbers

WHY JOIN ITU-T ?

Committed to connecting the world

✓ *Stay tuned to the latest technological developments*

ITU-T carries out pioneering standards work in:

- Numbering resources
- Security of networks and of transmissions
- Broadband
- Optical networks
- Home networking
- Video coding and multimedia codecs

✓ ***Anticipate the next revolutionary technology***

ITU-T new work focuses on:

- Cloud computing
- Smart grid
- Intelligent transport systems
- Future networks
- Internet of Things

✓ ***Break into new markets***

- ❑ Simultaneous acceptance of ITU-T standards by 192 member countries avoids going through cumbersome licensing procedures in multiple different markets
- ❑ Approval of your technology as an ITU-T standard means a guarantee of faster market entry and deployment
- ❑ Know in advance which other technologies are compatible and interoperable with your products and services

✓ ***Connect with the world's top ICT community***

- ❑ ITU-T meetings are a great way of connecting with new colleagues and competitors
- ❑ Over 700 private sector members of ITU each with same rights and obligations
- ❑ Several thousand experts from all over the world regularly participating in ITU work
- ❑ Forge valuable contacts for anticipating market trends or problem-solving

✓ ***Enjoy fast standards-making***

- ❑ Fastest approval process in ICT standards world
- ❑ Open standards developed by industry members and respecting clear intellectual property policies
- ❑ Global standards agreed through consensus
- ❑ Coordination and complementary working with other standards development to achieve objective of interoperable, non-discriminatory, international standards

Become an ITU-T Member now

- ❑ Join as an ITU-T **Sector Member** and get full access to all of ITU-T's Study Groups, conferences and assemblies.
 - Minimum annual fee: CHF 31,800

- ❑ Join as an ITU-T **Associate** and get access to one Study Group only.
 - Annual fee: CHF 10,600
(CHF 1 approx \$1)

Academia: bring your ICT ideas to life

New ITU-T membership category for

- Academia
- Universities
- Research institutes

Committed to connecting the world

✓ ***Discover ITU-T activities designed for Academia***

- ❑ ITU-T Kaleidoscope academic conferences brings academia from all over the world together with industry to discuss future ICT networks and services
- ❑ ITU-T Technology Watch surveys the ICT environment to identify emerging technologies and relies on members' contribution to produce the TechWatch Reports
- ❑ ITU-T runs an Internship Programme for students who wish to improve their skills and gain experience working in an international environment and learning about standardization work

✓ *Step into ICT leaders' world*

- ❑ Access key standards and other information sources, facilities and databases
- ❑ Access 192 governments/regulatory bodies from developed and developing countries
- ❑ Seek out potential new sources of income and finance - eg patenting, or funding possibilities by major companies

✓ ***Raise your profile on a global scale***

- ☐ Raise the profile of your academic institution and make practical use of your ideas
- ☐ Raise the profile of your work with the opportunity of publication
- ☐ See the advancement of your ICT innovations through worldwide recognition and adoption of global standards

✓ ***Become a key player in ITU-T***

- ❑ Participate in ITU-T Study Groups and other ITU-T meetings on standards development
- ❑ Influence global standards by submitting contributions, leading work, and taking part in consensus building
- ❑ Boost your CV by becoming an Editor or Rapporteur of a Study Group
- ❑ Access decision-making bodies of ITU-T and other high profile networking events

✓ ***Enjoy special membership fee***

Indian Universities/institutes can benefit from a reduced fee as Academia from developing countries

➤ **Membership fee: CHF 1,987.50**

(regular membership fee CHF 3,975)

(CHF 1 approx \$1)

THANK YOU!

**WE LOOK FORWARD TO
WORKING TOGETHER FOR
A SAFER, CLEANER, MORE
EFFICIENT WORLD**

Committed to connecting the world
